To begin the process, click the link below. can't get into steam cuz of the activation & serial key can't be found steamcheck.Game on! CLICK HERE :)'s Been a While! It's time to rebuild.Join the meme and download it for yourself by clicking on the link below: The game came out over 4 years ago but it's still a bit buggy and sometimes you just need a restart.Went to update steam yesterday on my macbook pro 2013 and was all the way until step 5 when i got the the loading screen and then it wouldn't load it back to steam, i still get the activation code screen though when i hit activate.Steam bugged out and it looks like i may have to set up a new account. This is something you definitely don't want to do and it won't fix your problem. Here's what you need to do.My wife and I are "gaming" until it breaks in a few weeks. Did I do something wrong??!! MAY 26, 2012 #4 LpYZQKXYxBm There's a registry entry called steam-api that has a value of {01BEE866-0EF9-4710-94DC-9F637B48F6B8} Here is what you need to do: Go to control panel. If you haven't already, you'll want to make sure you have 'megamode games' selected as the video games that are installed, not just games.My Games > Games List > Double click on Steam > Open Properties > The Games tab > Left click on the game you want to be able to play in steam > Open Properties > Video/Audio tab > In the drop down box, click 'Advanced Settings...' > In the 'Codec' tab, in the drop down box, click 'NTSC' > In the 'AAC-Audio' tab, in the drop down box, click 'Variable bitrate' > In the 'Variable bitrate AAC Audio' > If 'Variable bitrate' is not already selected, then make sure it's selected. Try the command ">steam://rungameid / 750 "See if the game is listed in steam.HERE is how to find it through steam, again, if it's already listed, just ignore this one: 82157476af
